

### HAD RIDE WITH PRESIDENT WILSON

They will win in every congressional district in the state and will carry Cook county," was the confident prediction expressed last Wednesday afternoon by Walter A. Thompson, manager of the anti-Thompson forces in the state campaign, just before he left for Springfield, after spending the night in Cook county.

The campaign just closing has been marked by the worst form of slandering by the Thompson-Lundin crowd," Mr. Thompson said. "Their desperation is evidenced by Thompson's latest threat that Governor Lowden is a liar and a traitor. No matter what mistakes Lowden may have made as governor, no one can rightly accuse him of this.

"As chairman of the organization committee of the anti-Thompson ticket, I want to say that we are ready for the primaries on the 15th. Every county in the state is organized.

"There is no doubt that the people do not want to have Thompson hold of our state government. Chicago is too close to us, and we can see what he has done there. We will carry every congressional district in the state and will also win in Cook county.

**Gives Warning.**

"I understand the Thompson-Lundin organization in Rock Island contemplates the wholesale voting of Democrats at the primaries on the 15th. The local organization is learning rapidly from the Chicago crowd and this is just a hint of what catastrophe is the domination of Small and his associates happen in this state.

"Challengers will be at every precinct on the 15th and the vote will be scrutinized thoroughly after the primaries and if any irregularities are brought to light the attorney general will prosecute them to the limit."

### ELEVEN CONFESS TO WRECK PLOT

Admission By Members of "Terror Gang" Implicates Over Communist Report.

Springfield, Ill., Sept. 7.—(United Press)—Detailed confessions of a plot to wreck the Diamond Special of the Illinois Central, kill all wreck survivors and murder farmers and others attempting to give an alarm, have been obtained from 11 of 20 alleged communists arrested here Sunday night in connection with the alleged plot, officials claimed today.

The alleged confessions implicate members of other communist groups. C. H. Paul, Chicago, inspector of the immigration department, claimed.

Evidence against those under arrest will be submitted to a federal grand jury and copies of the alleged confessions will be forwarded to Secretary of State Coby, officials said today.

Charging that her husband, Joe Dzenat, self-confessed communist leader of the gang that plotted to wreck the Diamond Special of the Illinois Central, is held by Chief of Police Morris without a warrant, Mrs. Maggie Dzenat today filed a petition for a writ of habeas corpus. It will be heard in the circuit court tomorrow morning.

This action found the authorities undecided. Eight of the 19 under arrest have confessed, the police say. But it is doubtful whether any charges excepting conspiracy to rob, larceny and counterfeiting can be substantiated.

Warrants of some sort are expected before noon.

### The Way You Say "America"

BY DR. JAMES I. FANES, President of Anti-Church World Movement and Chairman Federal Council of Churches of America.

What is your national accent? I am not speaking so much of what is on your tongue, as what is in your mind and heart, when you say "America." What are our feelings as we think of our national life today?

"Can we say 'America' as the first settlers said it? They were fleeing from oppression. They were seeking a land where they could worship God and be unafraid. We are preparing a Mayflower celebration to mark the 400th anniversary of the coming of that little band who hailed the winds which greeted them as they landed on a bleak New England coast as winds from the heights of God.

Can we say it as the millions of the poor of earth have said it during the last hundred years? They were hunting a place where they might work and live. Here they found freedom and opportunity. They have learned to love the flag. They call America their mother, and many of them have been ready to die for her.

Or must we say it, as some of these people are saying it today? The are the hearthstone of their patriotism. The light has faded from their faces. There is no care in their voices as they speak of America. They are going away with bitterness. Their love has turned to hate. They curse America as the cable hoists and they sail away.

Shall we say it as bigoted and untraveled provincialism used to say it, when America dwelt in the backwoods, mistaking bluster for power and bigness for greatness? We are not the only nation. We have virtues, but there are things to be learned from older nations. Surely, America has lived enough of a world life to be saved from the folly of overbearing egotism.

How shall we say "America"? Shall we say it as the allies said it when our first soldiers landed overseas to line up in the World War? What a welcome they gave us! We were on an unselfish crusade, and as the khaki-clad lads went swinging through the streets of London and Paris, the crowds that packed the pavements cheered and cried: "The Americans! The Americans!" Their hearts were on their lips as they cheered. "America" was musical then. It was the song of men who were to keep liberty alive in the earth. Would that we could always say "America!" with the accent of those great days!

### Fall Dress Buying In Full Swing at The Bee Hive

And we are daily convincing many women that stylish, serviceable dresses may be had this season at moderate prices.

Featuring This Week

## NAVY SERGE DRESSES

attractively priced at

**\$20, \$25 and \$32.50**

A wardrobe without at least one serge dress, is indeed incomplete, for not only is navy serge more becoming than nearly any other type of warm dress for fall, but its utility for so many occasions makes it truly indispensable.

The styles in these three price groups are strikingly smart—coat dresses, tunic styles, pleated models, many of them richly trimmed with unusual embroidery effects, threads of gold, buttons and braids.

## THIS IS EXACTLY THE TIME TO CHOOSE YOUR FALL COAT

Half the satisfaction in having a new coat is in wearing it on those first crisp days of autumn when the less foresighted are unprepared—before the new becomes commonplace.

There is also excellent choosing here now in spring coats of serge, gabardine, Polo cloth, velour—splendid short or long models for early fall wear and desirable for next Spring—reduced to

**\$10, \$15, \$25**

## STYLISH FALL SUITS

that will give full measure of service, at almost any price between

**\$30 and \$130**

And when we selected these suits we had in mind the woman who desires the unusual; the woman who wants a distinctive style feature or trimming and doesn't want to see it repeated on dozens of other garments.

Plain tailored models, beautifully braided and embroidered effects, others rich in their trimmings of fur.
